The West Shore Recreation Commission welcomed three new Board members at our February meeting.

Joseph Swartz representing Lower Allen Township; Fred Miles representing the Borough of New Cumberland, and Brian Hannon representing Goldsboro Borough.

The West Shore School District is planning renovations to the natatorium located at Red Land High School sometime in the “near future”. This will impact the swimming programs and activities offered by the WSRC. These programs are a significant source of revenue to the Rec Commission. Sent from [Mail](#) for Windows
